Term 3, Week 3- 2019

Thank You

A huge thank you to all the families who have been making very kind donations to our Preschool to enhance children's interests and add to our program:
Some of the fantastic donations recently:

- Boxes and other recycled materials for construction.
- Oranges and Mandarins from family member's gardens to promote healthy eating.
- Cuttings from gardens and soil to add to our gardens and make plants to take home.
- Paint balls to create colourful pictures as an extension from our water sponge throwing on the blackboard to paint sponge splats on black paper. So much fun and colour explosions to have.
- Craft materials and other resources we can use for play and craft.

Your generosity is greatly appreciated. Thank you!

Oral Health

As we focus on our bodies this term, the children were washing the baby bodies last week which led to them brushing the babies' 'teeth and gums'. We began discussions about how and when we brush our teeth.

This week, session one transformed the home corner to a dentist area and the role play continued as well as sharing personal experiences. The timing is perfect as it is dental health week. Our question for you is:

Buddies

This term we are excited to welcome Year3/4H to be our buddies. We started the term getting to know our new buddies while we did inside activities and this week we will be reading with them. We look forward to some memorable buddy afternoons this term.

Important Dates this Term

Week 6:

- Wednesday- August 28th
Book Week Parade (All Welcome)
- Father's Day Stall (Both sessions Monday and Thursday)
- Friday: August 30th: Father's Day Breakfast (All welcome)
