Term 3, Week 5- 2019

Handwashing

In Preschool, we have been focusing on our handwashing techniques and ensuring we wash our hands at a variety of times throughout the day or when we are at home.

The main times to wash our hands are:

- Before and after eating
- After using the toilet
- When we sneeze or cough
- After cleaning, gardening, messy play and when dirty.
- We also spoke about after playing with animals and playing outside
- We wash our hands to get rid of the germs so we keep well and healthy!

The song we are singing in Preschool and would love for you to continue at home is:

Top and bottom.

Top and bottom.

In between, in between

Scrub them all together, scrub them all together.

Now you're clean, squeaky clean!

Enjoying singing at home while you wash your hands.

Change in Routine

We have been reflecting on our daily routine in Preschool recently and have made some changes to our week to support children's needs, behaviours and ensure they meet their full potential in all areas of their development.

A huge focus is continuity and expectations throughout the routine for the children on their full days.

For the coming weeks, we will be remaining in the Preschool to build on our routine. Therefore, we are doing Library borrowing with our buddies on Monday and Friday in the Preschool and will be doing more gross motor activities and fundamental movement skills in the Preschool instead of the oval and at the jungle gym.

Thank you for your support and understanding.

Save the Dates

End of year dates have now been set for you to add to your calendar: more information such as times will be given closer to the dates.

Preschool Christmas Concert

Session One: Tuesday December 3rd

Session Two: Thursday December 5th

Whole School Presentation Day with Preschool
