The Preschool Shop

Last week, we were very excited to open our Preschool Shop outside. The children were engaged in the shop and continued to learn so many great skills.

The children were taking turns with the roles of the shop keeper and customers as well as using the trolleys and other equipment. We were also focusing on counting, money, writing lists, problem solving, negotiating and learning more about nutrition.

The shop is a fun, engaging and play based learning activity loved by all.

Can you child help you write the shopping list at home, help you shopping and pay the shop keeper?

Treasure Every Moment with your Child!

(What special moment are you going to treasure with your child today?)

- Give your child an extra special hug and kiss while telling them you love them!
- Laugh and have fun with your child.
- Remind your child of special times you have had with them during their life.

We would love to hear about special moments you have with your child each day. Your children love you so much!

We remember and honour a very special past child from Central Preschool (2017 and 2018)

The 'Treasure every moment with you child' was introduced into our newsletter when we were told the devastating news of our past student Austin who suddenly died late October, 2019. Austin attended Central Preschool in 2017 and 2018 and we will continue to honour and remember him and his family. He was a happy, energetic, inquisitive boy who loved construction activities, play outdoors, bugs, lizards, riding his motor bike and telling us all about his adventures. Austin had a great sense of humour and was well liked by his peers. Austin was loved by us at Central as we love and care about each and everyone of your children.

This week, we will attend his funeral to show our support and care to Austin and his family.

Christmas is fast approaching

The Christmas celebrations have begun in Preschool as we start making our Christmas gifts for families. They are a secret and made with love!

Last week, we wrote a group letter to Santa and will send it. You never know, we might get a letter back from Santa.

This week, Santa's Workshop has opened as the children role play being Santa's helpers. We are also opening the Post Office in the Literacy Area to build on the interest of letter writing.

The elf on the shelf has made an appearance this week. Stay tuned for the name of the elf that the children decide on. Let the festive season begin!

Treasure EVERY moment!
