

Dear Families,

We are so happy to have such an amazing group of children who have a love for play, learning, building friendships and smiling each day at Preschool. We have had a fantastic first week and the children are settling in beautifully! We will have an awesome year in Preschool ahead of us!

### **Food and drinks at Preschool**

In Preschool, we encourage healthy eating and drinking. *A friendly reminder, that we only have WATER at Preschool in drink bottles and lunch boxes.*

Please understand that we fill your children's water bottles with filtered water throughout the day so don't be alarmed if they come home with water in their drink bottles. We are making sure they drink water at Preschool.

### **Kinderloop**

This year we will be using Kinderloop to keep in touch with parents. Through Kinderloop you will be able to see what your child and their group have been doing throughout the week. Permission notes need to be returned to staff.

### **Building Fun**

Last week many of the children have been using our wooden blocks to build houses and other buildings. We have loved dressing up as builders in hard hats and high-vis vests. This week we are using recycled boxes, masking tape and scissors to create more building fun. We have had robots, hide outs, dinosaur enclosures and much more.

We love all your recycle goods in preschool. If you have any boxes, paper towel rolls, clean milk bottles or something similar we would love to take it off your hands.

Thanks!

### **Signing in and out**

Please remember to sign your child in and out of preschool. This is an important document to ensure your child is arriving and leaving safely with the correct adult.

Please forward all financial enquiries to the main school office or call Ph: 8087-3522
