

Dear Parents,

Thank you for all your support over the past 6 weeks! I know it has been a different time, but I feel that together we have done a great job, I have loved seeing all your posts on Kinderloop of the activities that were sent out. I hope you enjoyed completing them. Next week we are back to our normal two and a half days. Everyone is excited to be getting back into routine.

Preschool garden

Last week group one and two started planting our vegetables into the garden beds. We planted broccoli, cauliflower, beans, peas, carrots, lettuce and so much more. We discussed if the food we were planting was healthy or unhealthy.

Many of the children said they were excited to try our vegetables when they grow. Some have suggested recipes we could try.

Healthy lunch boxes

With our continue focus on healthy eating and lifestyles this term it is important to try and pack a healthy lunchbox. We see so many yummy lunches coming to preschool. Talk with your child about what a healthy lunchbox looks like and pack it together.

Water play

While we have been learning at home, we were lucky enough to have our water pump fixed. The children are loving playing with our pump, using different resources to change the water flow and play different games. We are all interested to know where the water goes when it reached the end of the river. Just a reminder to have a spare pair of clothes in your child's bag as we can become quite wet and cold throughout the day.

Please forward all financial enquiries to the main school office or call Ph: 8087-3522
