

Dear Families,

Welcome to our final week of Preschool for Term 2! We have had a fantastic Term focusing on Sustainability, Respect, Kindness, and Mathematical concepts through play. This term we have been going to the oval and big play equipment which the children have really enjoyed. We will be continuing this as per children request over the year.

## Safe Holidays

We wish all of our families a happy and safe Term break.

## Things to do to extend what went on in Term 2

Using items around the home (cups, toys, balls, books for example) ask your child to put them in order from biggest to smallest. Or sort items into groups (size, colour, shape for example). How tall a tower can you build using blocks/cups/books/duplo. This can further extend our mathematical concepts through play.

## Questions to ask your children

Some things you might like to ask your children over the holidays could be:

- What makes a good friend?
- If you could be any animal, what would you be?
- Why does blowing your nose help your ears?
- Why do we wash our hands?
- Who is the tallest in your family?
- If you could have a special power, what would it be?

## Term 3 Start dates:

Session 1: Tuesday 13<sup>th</sup> July

Session 2: Wednesday 14<sup>th</sup> July
