

Dear Families,

We have had another wonderful week at Preschool. Thank you to all the families who joined us at the Mother's Day morning tea on Wednesday. It was lovely having both session families come and spend time together. We also hope everyone had a wonderful Mother's Day on Sunday and got super spoilt!

## Preschool Garden

Something is different in the preschool garden. We have had a discussion with the children about what they would like to grow in our preschool garden. Mrs McIntosh brought in some plants from her garden for the children to plant. We have also received donations of the Woolworths Discovery Garden punnets from families which the children really enjoyed using this week.

If you have any plants, cuttings, or would like to donate a bag of soil, seeds or plants we would greatly appreciate it. Our Preschool Garden has been a child led experience which will continue throughout the year. The children will learn the benefits of growing things themselves, reaping the rewards of their hard work and care for our plants and our environment.

## Friendly Reminder

Please remember to pack your child their school hat. We have a very limited number of spare hats and may not have enough at any given time for your child.

Also, the weather is cooling down, please remember to have a full set of spare clothes that are labelled. We still do messy/water play and with the addition of the garden the children get messy!

## Dates to Remember

School Photos. Wednesday 26<sup>th</sup> May.

We understand some children don't attend preschool on Wednesday but would be fantastic if your child could attend just for their individual photo.

Children not attending Wednesdays and all session 2 children are welcome to come for their photo between 9.30am and 11.30am in the meeting room.
