Central Preschool

Term 1

Week 6

Newsletter

Dear Families,

Thank you all for a wonderful week at Preschool. As the Department of Education guidelines around COVID continue to change, we are happy to share that we can have families come into the classroom at drop off and pick up times. This would be a wonderful opportunity for the children to share their interests in the preschool environment and to ask any questions to staff. We are very excited for parents to come in and see what we have been up to!

Handwashing and toilets

Washing Hands and Toilet Hygiene is a very important routine we implement on a regular basis. We have our washing hands song that helps remind the children to thoroughly wash their hands. Children are also being encouraged to wipe their own bottoms. Educators are on standby to show how to fold the paper, and to assist if needed. Having conversations and demonstrating this at home is a good way to practice and help your child develop this skill.

Hand washing Song

"Tops and bottoms,
Tops and bottoms,
In between, in-between,
Rub them all together,
Rub them all together,
Nice and clean,
Squeaky and clean"

Friendly Reminder

Just a friendly reminder that due to staff-child ratio and Government guidelines around Preschool hours, children are to be picked up by 3pm (12pm on Wednesdays). This is to ensure staff can attend their staff meetings and have adequate time to prepare for the following day.

This week has seen the introduction to our very own 'Bunnings' store. The students have enjoyed playing with the variety of tools or serving the customers.
